**RESPONSE TO RESTRICTION REQUIREMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the restriction requirement set forth in the Office Action mailed August 25, 2004, Applicants hereby provisionally elect Group I (claims 37-46) for examination on the merits. To comply with the PTO's additional requirement to "elect" a single compound, Applicants identify a compound of formula I wherein R<sup>1</sup>, R<sup>3</sup>, R<sup>5</sup>, R<sup>6</sup>, and R<sup>7</sup> are hydrogen; R<sup>4</sup> is fluoro; R<sup>8</sup> and R<sup>10</sup> each are methyl; R<sup>9</sup> is (2-diethylaminoethyl)-aminocarbonyl, and R<sup>3'</sup> and R<sup>4'</sup>, together with the nitrogen atom to which they are attached, form pyrrolidin-1-yl. This compound is disclosed, for example, in the specification at page 23, lines 4-10:

Applicants understand that a search and examination on the merits should not proceed on the basis of the PTO's "review [of] the claims and disclosure to determine the scope of the independent invention," Office Action at page 3, but rather in accordance with the strictures of MPEP § 803.02. Thus, Applicants respectfully decline the PTO's invitation for Applicants to "set forth a group of compounds which are so similar within the same inventive concept and reduction to practice." Office

Action at page 5. Applicants already have clearly defined their invention, not "inventive concept," by "set[ting] forth" the claims now pending before the PTO.

Having fully complied with the PTO's requirement to restrict, Applicants now await an early and favorable action on the merits. If the Examiner feels that a telephone interview would advance the prosecution of this application, she is invited to contact the undersigned.

Respectfully submitted,
